## LIFE COVER OPTIONS

### Life

With this option, Death Sum Assured is paid to your family in lump sum immediately in case of anything unfortunate happening to you.

### Life Plus

With this option, Death Sum Assured is paid to your family in equal monthly instalments starting from the month of death till the end of the policy term or subject to a minimum of 36 instalments in case of any unfortunate event.

In addition to the above, the income/maturity benefits according to the pay-out option chosen by you will continue to be paid, as and when due so that the dreams you have for your loved one are fulfilled as you planned, whether you are there or not. Your family does not have to bear any of the outstanding premiums from the date of the unfortunate event.

An unfortunate event is often unforeseen. Hence, the plan also allows the nominee to take a discounted value of the entire death benefit in lump sum, to help meet any immediate financial emergency.

The Life Cover option once selected, cannot be altered subsequently during the policy term.

## PAY-OUT OPTIONS

### Income Option

Regular Annual Income payouts as a percentage of annualised premium are paid as survival benefits on each policy anniversary following the end of the premium payment term and continue till the last policy year. At the end of the policy term, the maturity sum assured is paid in a lump sum.

This helps create a second stream of income soon after the premium paying term. Your planned recurring expenses can be taken care of by regular income payouts. While the lump sum on maturity can be used to fund your major financial goals like starting a new business or building an emergency fund. Life cover is available throughout the pay-out period.

### Settlement Option

**Settlement in Instalments** Maturity benefit is paid in four equal annual instalments starting from the date of maturity. This can be used to meet the planned expenses for a specific period like child's higher education.

**Settlement in lump sum** If the life assured opts to receive the Settlement in Instalments benefit as a lump sum, 91.09% of the total benefit payable will be paid in a lump sum on the date of maturity. This option is suitable for meeting major financial commitments like buying a house or building a retirement corpus.

We understand that your plans might change. Therefore, Shriram Life Premier Assured Benefit provides you with the flexibility to change the pay-out option anytime during the premium paying term.

## BENEFITS UNDER THE PLAN

### Death Benefit

In case of death of the life assured during the policy term, provided all the due premiums till the date of death have been paid, "**Death Sum Assured**" will be paid to the nominee or beneficiary as follows.

**Life Option** The death benefit is paid immediately in a lump sum and the policy will be terminated.

**Life plus Option** The death benefit is paid in equal monthly instalments starting from the month of death till the end of the policy term or subject to a minimum of 36 instalments. In addition to the above death benefit, any income/settlement/lump sum benefits due from the date of death will continue to be paid as per the chosen pay-out option as if the life assured were alive and the policy will be terminated on payment of the last payout.

However, the nominee has the option to take all the above benefits in a lump sum. The lump-sum benefit is determined by discounting all the death/income/maturity benefits at a rate as approved by IRDAI.

"**Death Sum Assured**" is defined as the highest of

11 times the Annualized Premium for Limited Pay / 1.25 times the Single Premium for single pay.	105% of Total Premiums Paid till the date of death.

Premium Band in Rs.	Applicable percentage (Limited Pay)	Applicable percentage (Single Pay)
Up to 1,49,999	100.00%	NA
Rs.1,50,000 to 2,99,999	101.00%	NA
Rs 3,00,000 to 3,99,999	106.00%	100.00%
Rs.4,00,000 to 4,99,999	107.00%	102.00%
Rs 500000 and above	107.50%	102.50%

## PAYMENT OF PREMIUMS

We all have different income streams and the annual mode of payment may not suit everyone. We offer Half-yearly, Quarterly, and Monthly payment options in addition to the Yearly option to make it easier for you to pay your premiums. When premiums are paid on a non-Yearly mode, the annual premium is multiplied by the modal factor as shown below:

Mode	Half-yearly	Quarterly	Monthly
Factor	0.5085	0.2564	0.0859

## GRACE PERIOD

We understand that sometimes due to unavoidable circumstances you might find it difficult to pay your premiums on time. Don't worry, we got you covered!

We allow a grace period of 30 days for payment of premium for non-monthly modes and 15 days for monthly mode. Moreover, in case the life assured dies during this grace period and the premium for that period is due, we still provide you the life cover and the death benefit shall be paid to the Nominee(s)/ Beneficiary(ies) after deducting the said unpaid Premium till the date of death.

If the premium remains unpaid at the expiry of the Grace Period, the policy will lapse provided the policy has not acquired paid-up value. If the policy has acquired paid-up value, the policy will not lapse but will continue with the reduced paid-up benefits.

## LAPSE

We want you to get the maximum benefits out of your policy and hence, advise you to pay your premiums regularly.

However, in case the premium remains unpaid at the expiry of the Grace Period during the first two years, the policy will lapse and no benefits will be paid.

In case the premium remains unpaid at the expiry of the Grace Period after the first two policy years, provided that the premiums of the first two years have been paid in full, the policy status will change to paid up. This paid-up policy will then continue up to the expiry of the Policy Term or till the death of the Life Assured, whichever is earlier.

## PAID-UP VALUE

As mentioned above in the Lapse section, even if you discontinue paying your premiums but have paid at least two years' premium in full, your policy will get converted into a paid-up policy. Under the paid-up policy, all your benefits (i.e. Death benefit, Income benefit if applicable and Maturity benefit) will reduce proportionately.

The proportionately reduced benefits will be calculated as follows

### **Paid-up Death Benefit**

**Life Option** In case of the death of the life assured during the policy term, provided the policy is paid up, "Paid-up Death Sum Assured" will be paid immediately to the nominee(s) or beneficiary (ies) in Lump Sum.

**Life Plus Option** In case of the death of the life assured during the policy term, provided the policy is paid up, "Paid-up Death Sum Assured" will be paid to the nominee(s) or beneficiary (ies) in equal monthly instalments from the end of the month of death till the end of the policy term for a minimum of 36 monthly instalments. In addition to it, the paid-up survival benefits if any due, from the date of death, will continue to be paid till maturity. On maturity, the paid-up maturity sum assured will be paid. The schedule of payment will be based on chosen pay-out option as mentioned earlier in this document, in the section "Benefits under the Plan".

The nominee has the option to take all the above benefits in a lump sum. The lump-sum benefit is determined by discounting all the Paid-up death benefits at a rate as approved by IRDAI.

$$\text{Paid-up Death Sum Assured} = \frac{\text{No of premiums paid}}{\text{Total no. of premiums payable}} \times \text{Death Sum Assured}$$

### **Paid-up Survival Benefit: (For Income Option)**

In case of survival of the life assured till the end of the policy term, paid-up annual income payouts are paid on survival of the life assured from the policy anniversary following the end of the premium payment term till the end of the policy term.

$$\text{Paid-up Survival Benefit} = \frac{\text{No of premiums paid}}{\text{Total no. of premiums payable}} \times \text{Annual Income Payout}$$

### **Paid-up Maturity Benefit**

**Income/ Settlement in Lump Sum:** In case of survival of the life assured up to the end of the policy term, "Paid-up Maturity Sum Assured", will be paid on the date of maturity in Lump Sum.

**Settlement in instalment:** In case of survival of the life assured up to the end of the policy term, "Paid-up Maturity Sum Assured" is paid in four equal annual instalments. The first instalment payment starts on the date of maturity.

$$\text{Paid-up Maturity Sum Assured} = \frac{\text{No of premiums paid}}{\text{Total no. of premiums payable}} \times \text{Maturity Sum Assured}$$

## **REVIVAL OF LAPSED AND PAID-UP POLICIES**

The lapsed policy or paid-up policy can be revived within the revival period of five years from the date of the first unpaid premium by paying all the outstanding premiums due with interest accruing till the date of payment of the due premiums along with other revival requirements, as per the board approved underwriting policy of the company.

The revival interest rate shall be a 90-day average prior to the review date of a 10-year G-sec yield rounded to the nearest 50 basis points) plus 1%. The current 90-day average of 10-year G-sec yield rounded to the nearest 50 basis points is 7.5% and hence current revival interest rate is 8.5% p.a. The revival interest rate shall be reviewed on 1<sup>st</sup> April of every year.

No benefits are payable on a lapsed policy during the revival period. Once the policy is revised it is entitled to all the original benefits.

## SURRENDER VALUE

You have an option to surrender the policy before its maturity after premiums have been paid for at least 2 years for limited pay policies and for single premium policies the policy acquires surrender value at inception.

However, as you have bought this policy with specific needs and long-term goals, we would highly recommend you to continue this policy for the full term to reap the full benefits from the policy. In case of any financial emergency, you may take a loan against your policy instead of surrendering the policy.

On surrendering the policy, you will receive a Surrender Value, which is higher of the Special Surrender Value (SSV) or the Guaranteed Surrender Value (GSV).

### **GUARANTEED SURRENDER VALUE (GSV)**

The guaranteed surrender value is expressed as a percentage of total premiums paid (excluding any extra and rider premiums and taxes) less any income benefit paid if any.

### **SPECIAL SURRENDER VALUE (SSV)**

The policies will be eligible for non-guaranteed Special Surrender Value which may be higher than the Guaranteed Surrender Value. The Special Surrender Value will depend on the experience of the company and expected economic conditions.

The Special Surrender Value factors are expressed as a percentage of the paid-up Maturity Sum Assured plus a percentage of outstanding paid-up income benefit if any;

## LOANS

Shriram Life is a service-oriented company that values its customers and responds quickly. We understand that there may be times when things are difficult financially. But don't worry! We are here for you. Instead of taking out high-interest loans from other financial institutions, you can avail loans on your policy at just 9% per year compounding half-yearly saving a significant amount of money.

We allow a maximum loan of up to 80% of the surrender value (if any). The Interest will accrue on the outstanding loan balance at a rate declared by the Company from time to time. If there is an outstanding loan balance and accrued interest they will be deducted from the policy proceeds before any benefit is paid out. The Company ensures that no in-force/fully paid-up policy will be cancelled due to non-repayment of the loan.

The loan interest rate shall be (90-day average prior to review date of 10-year G-sec yield rounded to nearest 50 basis points) plus 1.50%. The current 90-day average of 10-year G-sec yield rounded to the nearest 50 basis points is 7.5% and hence current loan interest rate is 9% p.a. compounding half-yearly. The loan interest rate shall be reviewed on 1<sup>st</sup> April of every year.

For other than in-force and fully paid-up policies: In case the outstanding loan amount including interest exceeds the surrender value, the policy is foreclosed after giving intimation and reasonable opportunity to the policyholder to continue the policy.

Any change in the basis of determination of interest rate for policy loan can be done only after prior approval of the Authority.
